👤 Professional Summary

Frontend Engineer with **4+ years of experience** building scalable web applications using **React, Next.js, and TypeScript**. Experienced in developing enterprise SaaS platforms, implementing reusable component architectures, optimizing UI performance, and integrating complex APIs. Strong background in collaborating with cross-functional teams to deliver high-quality user experiences in AI, fintech, telecom, and HR platforms.

👜 Professional Experience

Software Analyst (Frontend Engineer),
Clecotech International Pvt. Ltd.

04/2022 | Indore, India

Developed and maintained scalable frontend applications for multiple enterprise SaaS platforms using **React, TypeScript, Redux, and React Query**.

Key Contributions

- Designed and implemented **reusable React component architectures**, improving development efficiency across multiple projects.
- Developed **dynamic dashboards and data-driven interfaces** integrated with REST APIs.
- Optimised application performance using **lazy loading, memoisation, and efficient state management**.
- Collaborated closely with **UI/UX designers and backend engineers** to deliver high-quality user experiences.
- Assisted junior developers with debugging, architecture understanding, and code quality improvements.
- Participated in **Agile development processes**, including sprint planning, code reviews, and feature delivery.

📁 Projects

AdvisoriAI – AI Report Generation Platform,

AI-powered analytics platform designed to generate automated business reports from complex datasets.

Responsibilities

- Built interactive **report generation UI using React and TypeScript**
- Implemented dynamic data rendering and optimized API data handling
- Developed reusable UI components for report visualization
- Ensured responsive design and seamless user experience

Technologies React, TypeScript, React Query, Material UI

AVCWISE – Pension Contribution Management System, Financial platform designed to manage salary sacrifice AVC contributions within the UK Local Government Pension Scheme.

Responsibilities

- Developed scalable UI modules for financial data visualisation
- Implemented secure API integrations for pension data synchronisation

- Worked with cross-functional teams to ensure feature delivery and compliance requirements
- Technologies React, Redux, TypeScript

VIVUP – Employee Benefits Platform, Employee benefits and wellbeing platform providing tools for benefit access, reporting, and employee support programs.

Responsibilities

- Developed responsive React interfaces for employee benefit management
- Implemented dynamic reporting features and user dashboards
- Optimized UI performance for improved user interaction

Technologies React, JavaScript, Material UI

VoiceRules – Global Phone System, Cloud-based communication platform providing virtual phone numbers, call forwarding, and global connectivity.

Responsibilities

- Developed user interfaces for managing call routing and phone configurations
- Implemented responsive and scalable UI components
- Improved usability through collaboration with UX designers

Technologies React, JavaScript, twillio

Invoicean – Invoicing and Billing Platform,

Billing platform designed to help businesses manage invoices, clients, and financial reporting.

Responsibilities

- Built interactive UI components for invoice creation and management
- Implemented responsive design for cross-device compatibility
- Integrated APIs for client and billing management

Technologies React, TypeScript, MUI

Freelance Project

Sanchit Healthcare LLP – Corporate Website 

Designed and developed the official marketing website for a healthcare solutions company.

- Built a professional corporate website to showcase healthcare products and services
- Implemented responsive design for improved user engagement
- Optimized site structure for better usability and brand presentation

Technologies React / Next.js / HTML / CSS

Nayrit Technology Pvt. Ltd. – Corporate Website 

Developed a corporate website for an industrial engineering company specializing in surface finishing and coating plant solutions.

- Created a professional web presence for showcasing engineering capabilities
- Designed responsive layouts and product presentation pages

Technologies React / Next.js

MS Store Management System – B2B Ecommerce Platform

Developed a B2B ecommerce platform for store owners to manage inventory and purchase products.

- Built product browsing and inventory management UI
- Integrated APIs for order and inventory management
- Designed scalable frontend architecture

Technologies React, JavaScript

Skills

Front-end/ Back-end

- React.js , Next.js , JavaScript (ES6+) , TypeScript , HTML5 , CSS3, Node, Express, SQL, MongoDB

State Management

- Redux, Redux Toolkit, React Query (TanStack Query)

UI Libraries

- Material UI, Bootstrap

Tools

- Git / GitHub, Jira, REST API Integration

Education

Bachelor of Technology – Computer Science,
Jaypee University of Engineering and Technology

Guna, India

Certificates

- Front End Development with React – AchieverIT
- Multi Cloud Network Associate – Aviatrix
- Cisco Certified Network Associate (CCNA)
- Certified Network Security Specialist – ICSI

Awards

Recognized for Exceptional Talent in Software Development

2024

Letter of Appreciation – Jaypee Youth Club

2021
